

Pre-meeting of the Congress of the Nordic Society of Nephrology May 4th 2022

Kidney Outcomes from Theory to Clinical Practice

Chairs: Rikke Borg and Ditte Hansen

Venue: Odeon

Program:

8.30-9.00 Coffee

9.00-10.30 **Volume Status in Kidney Injury (Finland)**

The importance of Fluid Status in Acute Kidney Injury

Mikko Haapio, MD, PhD, Helsinki University Hospital, Finland

Current Methods of Volume Status Assessment in Acutely Ill Patients

Jukka Sauranen, MD, Tampere University Hospital, Finland

The role of Bioimpedance in Estimating the Volume Status in Kidney Patients

Seppo Ojanen, MD, PhD, Tampere University Hospital, Finland

10.30-10.45 Coffee

10.45-11.45 **Clinical Trials in Nephrology (Denmark)**

Impact of clinical trials on nephrology practice: Challenges and solutions

Professor Bo Feldt-Rasmussen, Department of Nephrology, Rigshospitalet, Copenhagen University Hospital

Outcomes measures in clinical trials, with focus on nephrology endpoints and biomarkers

Professor Henrik Birn, Department of Nephrology, Aarhus University Hospital

11.45-12.00 Coffee

12.00-13.00 **Acute Kidney Injury (Iceland)**

Community acquired acute kidney injury: Why does it happen and can we prevent it?

Telma Huld Ragnarsdóttir, MD, Landspítali University Hospital, Reykjavík, Iceland

Acute Kidney Injury and Outcome

Daði Helgason, MD, PhD, Skåne University Hospital, Lund, Sweden

Renal replacement therapy in acute kidney injury: Which modality and when?

Pórir Einarsson Long, MD, PhD, Landspítali University Hospital, Reykjavík, Iceland

13.30-14.00 Lunch

14.00-15.15 **Transplantation (Norway)**

Transplantation in Norway – a brief presentation of organization and activity

Kristian Heldal, MD, PhD, Department of Transplantation Medicine, Oslo University Hospital, Oslo, Norway.

Skeletal health in kidney transplant recipients

Hege Kampen Pihlstrøm, MD, PhD, Department of Transplantation Medicine, Oslo University Hospital, Oslo, Norway.

Cancer in kidney transplant recipients

Dag Olav Dahle, MD, PhD, Department of Transplantation Medicine, Oslo University Hospital, Oslo, Norway.

CMV in kidney transplant recipients

Kristian Heldal, MD, PhD, Department of Transplantation Medicine, Oslo University Hospital, Oslo, Norway.

15.15-15-30 Coffee

15.30-17.00 **Assessment of fluid status in patients on maintenance dialysis (Sweden)**

Assessment of fluid status and dry weight in patients on maintenance hemodialysis - Recova - a new clinical tool

Jenny Stenberg RN, PhD, Akademiska hospital, Uppsala University

Magnetic resonance tomography (MRI) for body composition assessment – water and fat in muscle tissues

Ainhoa Indurain MD PhD student, Linköping Hospital and University

Body composition monitoring in patients on maintenance dialysis with bioimpedance spectroscopy (BIS) – benefits and drawbacks

TBD
